

Coaches,

As many of you are aware, starting this coming quiz season I will be assuming the National question writing responsibilities i.e. Extravaganzas, District Finals, and Nationals.

As such there are a couple of changes that you will see, and I wanted to give you as much notice as I can so you can prepare your quizzers accordingly.

The first is, along with the rule change which was passed this week, the Cross Reference Quotation Questions can now be used during each quiz season. They will follow the same rules as in years past. MUST be two consecutive verses which flow together, and are both shorter verses. This just gives us another quality 30 point question which quizzers have already displayed a great ability to adapt to.

The second is the location of a unique word or phrase.

Example.

“Pentecost.” Locate the verse of study that contains this word.

ANS. Acts 2:1.

We will continue to use this question BUT it will be a 20 point question. The quotation variation of this question will still be a 30 point question. This is an effort to try to give these questions point values that reflect their difficulty.

Lord bless,

Bro. Terry Marshall

National Junior Bible Quizzing Director
