QUIZZERS SUMMARY ADDED TO COACH DASHBOARD

The screenshot shows the Coach Dashboard interface. At the top right, there is a user profile for 'bwrwzw@yahoo.com' and a hamburger menu icon. A blue arrow points to this menu icon, which is labeled 'Easy Access Menu'. The menu is open, showing four options: 'Dashboard', 'BQLearn', 'BQLookup', and 'BQQuote'. Below the menu, there is a 'BQLookup' button. The main content area features an 'ANNOUNCEMENTS' section for 'BQSuite' with a welcome message for CoachRuth. Below this is a 'Your Quizzers Overview - Last 7 Days' section containing a table with quizzer performance data.

These views stay synced in real-time!

Parent/Coach View keeps track of time and whether the quizzer quotes the verse perfectly or not.

The optional quizzer view shows the quizzer the reference. If the quizzer misses the verse beginning, it displays on the quizzer view as well.

REMOTE QUOTING IS NOW POSSIBLE

- BQQuote is like a “digital version of boxed cards” with the added bonus of quote results maintained in the cloud.
- With the new quizzer view, a quizzer can be quoted remotely (via FaceTime, a phone call, or any other audio or video call). The person quoting the quizzer and the quizzer can even be logged in to the same account from different locations, so virtually anyone from anywhere can quote a quizzer on any device at any time!
